Dear Mr Havas

Following the official opening of the *Courage to care* exhibition held at the Museum of the Riverina on Thursday 15 November 2001, I write on behalf of the Wagga Wagga City Council and the Museum of the Riverina to express our sincere thanks to you for your role in the staging of this exhibition. I hope you would agree that the opening was a wonderful occasion, an unqualified success for Wagga Wagga, and looks set to become the exhibition with the highest visitation numbers yet seen at the Museum.

Wagga Wagga is very pleased to host this exhibition, and I would like to express our deep appreciation of and admiration for the exhibition. The importance of the philosophy behind it is most timely in the world today. Its staging, its content, its volunteer guides, is brilliant. There could be no better way for visitors to engage with the content than by hearing at first hand the experiences of the volunteer guides.

On behalf of the community of Wagga Wagga I offer you and members of B'nai B'rith the City's congratulations.

Yours faithfully

  
John Craig  
Director Community Services
